

Luke Thomas

10+ years working in the tech sector across a wide variety of roles. My experiences range from small startups, to big corporations and running my own small business. I am also a self taught web developer and you can see my portfolio here: www.lukedev.io

Penny Lane,
Liverpool

MAIN EXPERIENCES

lukedev.io — *Developer*

MARCH 2024 - PRESENT

I have been diligently and consistently learning to become a web developer. Working with 'The Odin Project' and with a few customers to deliver sleek and well designed websites.

Steed — *Founder*

MAY 2023 - PRESENT

Secured work with both corporations and founders to support their early stage company work through a combination of coaching and software development.

Built Ventures — *Head of Growth*

Jan 2019 - Jan 2024

Headed up an investment pipeline for a venture builder, selecting early stage opportunities for investment and helping strategise their product and path to market.

We Are Nova — *Technical Product Owner*

May 2014 - Jan 2019

Working directly with business founders, development teams and designers to implement complex software solutions. Worked on a now exited video analysis platform called LivingLens.tv

EDUCATION

Liverpool John Moores — *Computer Games Technology*

September 2011 - June 2015

First experiences working on anything technical. Implements software in multiple languages, primarily C++.

SKILLS

Great personal and communication skills.

Entrepreneurial mindset from my vast experience working with early stage companies.

Self taught web developer, comfortable with HTML, CSS and JavaScript.

Projects

Personal portfolio:

lukedev.io

Co-founded a personal finance company called PinPoint. We raised over £3M and got into a variety of prestigious programmes.

Ran a university incubation and spin out programme.

I help run a small cohort of tech startups as an advisor.

LANGUAGES

Development: HTML, CSS and Javascript.

Spoken: English, Welsh
